

Artwork by Karina, age 5

It's Mother's Day,
and I wanted to show you how
special you are to me.

In your honor, I made a gift to **Arts For Life**,
which helps children and families battling
illness and disability through the healing
power of the arts.

Now **thanks to you**, kids in hospitals and
clinics across NC will have the opportunity
to create, craft, learn, sing - and hope.

Ann, mom of young patient Elizabeth, said:
"With Arts For Life, Elizabeth was able to
express herself, be herself, feel herself,
away and apart from the strong medicines
she was receiving. Arts For Life was a lifeline
for her spirit."

Thank you for being the lifeline for MY spirit.
